OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organization.

PROJECTS

Voice Assistant ChatBot

- This is a computer program designed to interact with users through voice commands.
- It a python program integrated with a OpenAI API.
- Interpret user queries and provide appropriate responses.

Cure AI(AI - Powered Disease Solutions)

- Cure AI is an intelligent healthcare system designed to predict diseases based on user-provided symptoms .
- Using Machine Learning and medical dataset the system finds possible illnesses and gives Precaution, Medication, Workout, Diet.

The Stream

- A UI/UX Design for a Streaming Web Application
- The application was made with the user in mind, and its modern Figma-designed layout puts a focus on easy navigation, content finding, and personalized user experiences.
