OBJECTIVE

User-centric UI/UX Designer experienced in design thinking, user research, and accessibility standards. Proficient in Figma . Passionate about creating intuitive experiences that solve real problems.

PROJECTS

Fit Flow

📅 2025

[Figma](#) | [Fitness Tracker](#) | [Mobile Application UI/UX Design](#)

- Designed an end-to-end fitness app covering Workouts, Nutrition, Progress Tracking, Community, and Profile Management.
- Designed 25+ screens using modern dark UI, glassmorphism, and clean visual hierarchy.
- Designed easy-to-use navigation across all main features with a focus on personalization and accessibility.
- Built interactive wireframes and prototypes to validate user flows and improve usability.

Farmora

📅 2025

[Figma](#) | [Online Grocery Platform](#) | [Web Application UI/UX Design](#)

- Designed a user-friendly online grocery shopping platform focused on fast product discovery and effortless checkout.
- Created 15+ high-fidelity screens with a focus on usability, clarity, and fast decision-making.
- Built structured user flows to reduce friction during product selection and checkout, with a strong focus on accessibility, responsive behavior, and a seamless shopping experience across devices.

The Stream

📅 2025

[Figma](#) | [Video Streaming Platform](#) | [Web Application UI/UX Design](#)

- Designed 10+ key screens covering onboarding, content browsing, discovery, and pricing, ensuring a smooth and intuitive user flow.
- Built a responsive design system with reusable components and modern UI patterns like dark mode and card-based layouts.
